## THE EXPERIENCE

The Performance Gallery will take you on a thinking journey to help you unlock your human potential and boost your career. We will unlock what makes you unique and shape the career vision to express it.

You will undertake a programme tailored to your needs. You will be coached by a qualified Careers Coach & HR Expert, who will support you through the stages, via Zoom or at a location convenient to you.

The programme is made up of three main components:

### EXPLORE

Become more aware of where you are in your career and where you aspire to be in the future. Determine your career goals to get you moving forward.

### UNLOCK

Discover your values and style (your personal brand) to define your career "sweet spot" and the talents that motivate you. Let us understand what defines your human potential & determine what an extraordinary career can look like for you.

### BOOST

We will pull together all we have learnt about you and create an action plan so you continue on your new pathway.

We also follow up after the programme to keep you on track.
